

Using Microsoft “Edge”? Switch to Google Chrome, Mozilla Firefox, or Internet Explorer

NOTICE REGARDING “COMPATIBILITY VIEW SETTINGS”

Applies to Internet Explorer Only!

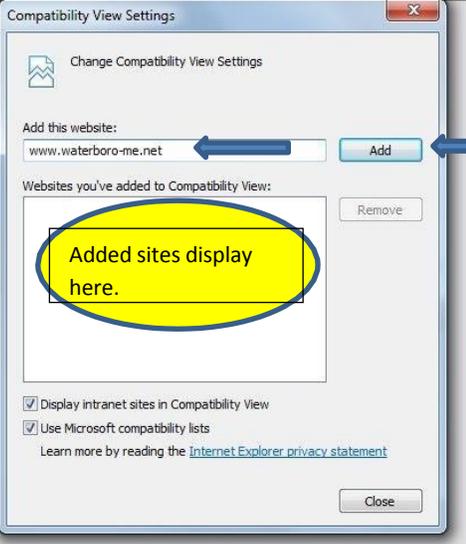

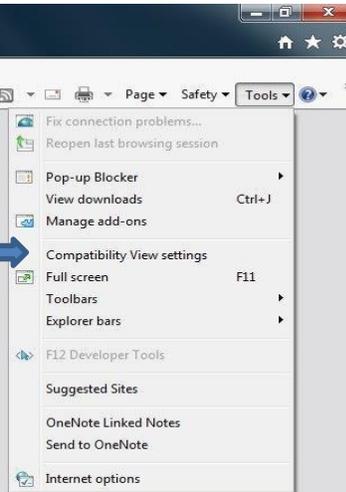

If your Internet Explorer browser was recently upgraded (typically to Version 11), you may no longer see all of the menu items in the LEFT column of the Town website.

Many websites may no longer view in exactly the same way as they did with the previous version of Internet Explorer. This will also apply to those as well.

To resolve the issue in Internet Explorer:

- Go to “Tools” and select “Compatibility View Settings”

The site you are at will display in the “Add this website” field. Click “Add” to put it in the box below titled “Websites you’ve added to Compatibility View”.

There MAY also be a checkbox which says [x]“Display all sites in Compatibility View”.

It is advised to also check this box and any other boxes in this window.

FINAL NOTE: If you do not see “Tools” in your toolbar, **RIGHT CLICK** on the toolbar and click “Menu bar”, **RIGHT CLICK** again and select “Favorites bar”, then again and select “Command bar”.

If all 3 are checked, you will see “Tools” menu item.
