7:00 p.m.

Waterboro Town Hall Annex Meeting Room

You are invited to an informational workshop to review plans for the new Waterboro Public Library and discuss potential funding mechanisms. Jack Seery will give a brief talk on what the Friends of the Libray have done to this point and Frank Oliva, Architect, will present a model and review the plans for the building. After the presentations we intend to then break into small groups and hold informal discussion and allow everyone the opportunity to review the plans after which we will then reconvene for a question and answer period.
