

Please support the **NEW** Waterboro Public Library

A full-service, state-of-the-art NEW public library with expanded collections, adult and children programming, and artistic presentation space.

Benefits of the **NEW** public library:

- For only \$10 a month (half the average cost of a hard cover book) you can have a full-service library with services that can save you hundreds of dollars per year AND improve your quality of life.
- The larger, organized space will allow for almost double the current inventory of DVDs, books and magazines.
- The high-tech computer workstations will include wireless internet and access to up-to-date software for research, job searches, homework, e-mail and more.
- The large meeting room will provide endless possibilities including adult programming, business meetings, book clubs, home-schooling seminars, crafting groups and more.
- The designated teen and children spaces will be centrally located to allow the library staff to provide resources and support while creating programs designed with our younger citizens in mind.
- By meeting Maine State Public Library Association's standards, the new public library will enable us to apply for grants in the future that we currently do not qualify for.
- The full-service library will contribute to the town's efforts to increase economic development.
- A stronger sense of community in Waterboro will be developed as the new library becomes a central gathering place and cultural center for residents with shared interests.
- The new library will provide a beautiful spacious and peaceful atmosphere that will foster education and life-long learning for everyone who uses it.
- The proposed building was designed using material that will allow for low maintenance costs in the future as well as being environmentally friendly.

If you are interested in helping to make this NEW public library a REALITY, please contact the Friends of the Waterboro Public Library at 247-3363 (leave a message) or e-mail jseery@sacoriver.net.
