

Library Building Committee Report

10/28/04

Abstract: The Building Committee has had one meeting since our most recent Board Meeting.

Debbie Downs met with us and we created a sub-committee to engage in grant writing for the new library. The first task will be to create a list of foundations and other sources of money. The list will include their criteria for giving money, contacts, and other pertinent information.

There has not been any movement on the selection of a site or choice of architect or further development of the design.

The friends are close to complete the application for the 501c3 status.
