Road Assessments: All that is left to do is the state aid roads. Dustin evaluated the West Road and utilized his thermal imaging camera on some of the bad areas and discovered that there is moisture under the road and it is in very bad condition. The committee will be making a presentation to the Board of Selectmen to inform them of our findings and they will hopefully get the state involved.

Dustin showed a PowerPoint presentation he created that will be shown to the Board of Selectmen during our budget meeting.

There is a meeting on November 25, 2008 with the Board of Selectmen and Cartridge Lumber at 7:00 PM. There was a recommendation that the members of Road Review Committee attend.

Fred reported that FEMA has contacted him and he is anticipating getting money from FEMA for ditching.

Motion to adjourn at 7:50 PM by Ron and 2nd by Don and approved 5-0.

Respectfully submitted,
