Clinton Strout, Auditor for Patterson & Strout Co. in to review the 1982 Town Audit. The audit was discussed and the question raised about using \$60,000. from unappropriated surplus for the Ossipee Hill Road Project. Mr. Strout said that he would like to run some figures on this before giving them an answer, as to the feasibility of doing this or if they should maybe take only part out of the surplus account and raise the remainder.

Strout said that if the Board had decided to hire his Firm again for the Audit he would like to come over in May and check out every thing so that it would be easier at year end to perform the Audit. He was asked to present a proposal for the selectmen's review for 1983.
