

Jan. 17, 1985

Reported by Andrew C. Woodsome, Jr., Selectman

Meeting held at the Southern Maine Finishing Corp. Plant with the owner Stuart Gannett, members of the Fire Dept. Chief Raymond Emmons, Jr.; Assts. Michael Emmons, Alan Dyer, Charles Drapeau; Deputies, Kevin Therault, Gerry Pare, Dept. Alan Dyer's wife Debra, Andrew Woodsome, Selectman.

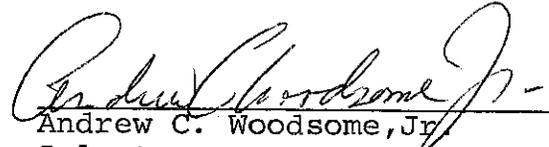

Mr. Gannett gave a tour of his Plant and it was decided to refer to the buildings as #1; 2; & 3. Bldg. #1 to be the Main Plant; Bldg. #2 the Garage, Bldg. #3 the Treatment Plant.

It was agreed that foam could be used on Bldgs. #1 & 3. In Bld. #2 the fire could be fought in any way the Fire Dept. decided on at the time.

A conference was held in the So. Maine Finishing Conference Room and Mr. Gannett pointed out that his main concern would be the electrical entrances. This seemed to be Mr. Gannett's primary concern that the electrical power be shut off to the plant, ^{due to so much electricity in his,} and the second concern was that with the over loading of the tanks and the possible mixing of chemicals if the tanks should overflow, with the extra water pumped in by the Fire Dept. Mr. Gannett will provide a floor plan of the Plant to the Fire Dept.

Mr. Gannett talked to the Department about HALON installed over computer that will trip off automatically in case of fire. Mr. Gannett showed them the furnace room. Gannett will meet with the Department in two weeks and will put together some information for them. They may have a mock fire drill. Gannett would also like to talk to the Fire Dept. concerning the paint shop that he is running at Clint's Marine building.

Mr. Gannett asked Mr. Woodsome if he would set up a meeting with the Board of Selectmen to discuss Westwinds Dev., Mr. Gannett recently purchased. Woodsome said went Gannett was ready to meet to let the Board know. Mr. Gannett said that he would like to discuss the roads in the Development and possibly set up an escrow account for money for the roads.
