From now on, tapes should be dropped off at Nicely's Video in Bar Mills where someone that works there will be handling the programming of the tapes and every day taking them to the station in Bar Mills. They do not have any video technicians. They do not come in and tape live. They have some video equipment and will be dividing the equipment by Towns, Towns who use the municipal channel the most will get the bulk of the equipment. Mr. Bannon will contact Sel.
