

SELECTMEN'S MEETING MINUTES
June 6, 1989

Regular meeting of the Waterboro Board of Selectmen.

PRESENT: Chairman Andrew C. Woodsome, Jr., Robert C. Fay, Dennis G. Abbott.

REPORT OF STANDING COMMITTEES:

NEW BUSINESS: Bids for seal coat and paving were opened. Chairman Woodsome read the bids. Copies of bids were presented to the bidders that were in attendance. The bidders will be notified next week after a decision is made.

HOLLIS FREEWHEELERS: Judy Berry represented the club. They have scheduled a ride-a-thon on July 23 starting at 9:00 am in Hollis and ending at the Medical Center in Waterboro. They will have a police escort, with one in front and one in back. They have a million dollar insurance policy. There will also be two game wardens riding with them. Clubs throughout the state will be there. The money raised will go to the Hazard family. The family and channel 6 news will be covering the ride-a-thon. They will be on the 6 & 11 o'clock news but a 10 minute segment will be done on the family for People, Places and Things and what the Freewheelers did for the family. The Board gave the club permission to use Town Roads if they are very carefull not to cause any damage to the roads.

FRED FAY: Fred came in to talk to the Board about the Sand Crossing Road and McLucas Road. Both roads and others were closed on 3/14/55. In 1973 or 1974 one end of the Sandcrossing Road was tarred and it is plowed by doug. Fred also feels that if the road is fixed through to Rte. 202 it would relieve the traffic off the West Road. It would probably cost alot of money to do so. Sel. Fay stated that the Town Road Research Comm. needs to make a recommendation to the Selectmen on the Roads. He has concerns if the roads were closed legally. Fred told the Board that it was up to the Selectmen to decide according to Town Meeting vote and not the committee. The Board told Fred to tell Wayne Gile that the Sandcrossing Road is closed and the Town only maintains the road that is tarred.

CONSTABLES: The Board asked the Constables in to discuss some things. The Board told the Constables present that Phillip Goodale has submitted his resignation. Chauncey told the Board that he nevers carries a gun, if he goes into Lake Arrowhead he does take a shotgun with him. Phil did a real good job at the dump. Chairman Woodsome told the Constables that someone is needed at the dump once in awhile to check to see if everyone has stickers that is using the-dump. There is a new guy at the transfer station, Stoney is semi-retired Duane McCoy told the Board that he could work 2 or 3 hours at dump on Sundays. Chauncey can be there any Saturday from noon to closing. The Town needs a couple more Constables. The Board will talk to Parks & Rec. about the Rte. 5 area and will have baseball caps made up for them.

DUMP COMMITTEE: Frank Allen and Judy Carll represented the Committee. Frank asked if any of the Selectmen are planning to attend the RWS meeting on Thursday to discuss the demolition dump at Gorham. The Board will be sending Dwayne Morin at the noon meeting. Frank did not know if he would be attending the noon or the evening meeting. Frank asked the Board what they wanted in their report. There has been no reports or slips passed in since the ordinance went into effect. The committee has not really monitored the dump. Sel. Abbott told them that the Board has had several things in the ordinance clarified and there are still some adjustments to be done. Sel. Fay suggested the maybe the Board should set up a meeting with the Dump Comm., dump attendants, Fire Dept., Richmond Stevens and the new guy to have a round table discussion on the dump. May have to move the shack at the dump up by the gate and have one person there just checking everyone who comes into the dump. Chairman Woodsome asked the Committee about an honor system recycling program starting with the glass. Would like to do an honor trial before it is mandatory recycling. Frank told the Board that he can see that within 10 years there will be street side trash pickup in Town. The Board and Frank discussed the legislature proposed recycling program. Frank told the Board that the Gorham site will be a separate business from RWS, different board, different everything. The Board will set up a workshop with Road Commissioner, dump attendants, Fire Dept., Richmond Stevens, new man at the transfer station, Selectmen, and Dump Committee on Thursday June 22 at 7:00 p.m. This will be a round table discussion.

WAYNE MORIN: Dwayne met with the Board to report on what he has been doing. On the Leather Mill the draft report is not ready yet. The Board will send the letter that Atty. O'Connor wrote to get the report on SMF. Dwayne found out the DEP has an agreement with Stu to give him 24 hours notice before they come down to SMF. Ted Wolfe, DEP, met with Dwayne and they went down to the SMF site and found about 13 barrels out back of the storage building. One was broken and was leaking onto the ground. One had a long name on it. The next day Ted Wolfe called Dwayne and told him that they did not see what they saw at SMF. Dwayne feels that Ted had his hand slapped when he returned to his office and reported what he saw. Dwayne and Tim will go down with the video camera tomorrow and get the barrels on tape. Ted Wolfe and Dwayne also went down to the Leather mill. EPA asbestos removal will start tomorrow for four days. Biddeford Demolition expects to be done by the end of June.

Selectmen's meeting
6/6/89 page 3

Dwayne also talked to George Seel and the agreement for water is at the attorneys, and will be there probably until June 20. Sel. Abbott suggests running the agreement at the Special Town Meeting on July 18th. Dwayne presented the Board with prices that he received for a computer. He needs to get a price from Northern Data. CMP called Les Leighton on what he has done on the poleline. CMP told him that he could not do it. Dwayne called Don Kale and Deb Pierce and they told him that they were busy and didn't know when they would be out to look at it. Sel. Abbott suggests that if he does not hear from Kale within a week, then should contact Bonnie Titcomb and Willie Lord.

CEO: The Board was asked about lifting a non-buildable restriction on a Lake Arrowhead Lot. The people that own it now would like to build a garage on it. They are the third party to have owned this lot. The Board voted that the non-buildable restriction can only be lifted by the original owner.

The Board appointed Judy Carll and Jon Gale to be on the Planning Board.

Board gave permission for a workshop to be held between the Zoning Board of Appeals and their Attorney.

The Board will hold a Special Town Meeting on July 18th. All committees will be sent a notice incase they have something to be put on the warrant.
