He does not have a contract with the Town but he does have one with Parks & Rec.

Chm. Fay inform Allan that he needs to fill out the forms for his wife when she helps him and not add it to his time slip. He has been mowing every week and he feels that some of the cemetarys should be done twice a week. Allan was told by the Selectmen to clean up the cemetary out behind the library and when he was done the Lions would mow it and take care of it. The grass grew tall and Allan mowed it, he stated that he hated to see all the time that he spent cleaning it up go to waste. The Board told Allan to continue to mow that cemetary. Along with the mowing and trimming that he does he also fixes the stones. He estimates that it takes 30 to 40 hours al week to do the trimming and mowing. Until he hears differently he is to continue mowing and trimming but he is to hold off fixing the stone, he is to make a list of what needs to be fixed and he will present it to the Selectmen and a request will go on next year's warrant asking for money to fix the stones. One cemetary in North Waterboro Allan told the Board that all the stones are laying flat on the ground.
