### **APPOINTMENTS**

7:00 P.M. – Richard and Cathy Cook requested that the fire pond on the property be completed as stipulated by the Planning Board. They would like to landscape their property and can not until this project is completed. Stated that currently the water is overflowing the pond and flooding their lot. John explained that all he has left to complete it is to dig a trench and install the pipe. Mrs. Cook would like to see an overflow pipe installed. John will go out with the CEO and inspect in the morning. Doug explained that the only person who can enforce this is the CEO. After he visits the site should send a registered letter to the developer notifying him that it does not meet standards, then request to meet him at the site with the engineer who drew up the plans. The only thing the town can do is to make certain it gets built as the plan shows.

7:15 p.m. – Discussed the funds to be released to the snowmobile club. It was stated that they did not do the work required to receive the funds. Scott Young, President stated that his people did not do the work on the Ross Corner Road as requested because the entire area is posted with No Trespassing signs. Stated that he had notified the Road Commissioner of the situation and Dave states that he had not heard anything of this. Gordon Daney stated that if it's a town road the town can cut they just can't remove the wood. Doug suggested that if the Fire Chief, Road Commissioner and snowmobile club get together and sign a contract then they could cut the check and hold until the work is completed. This needs to be done by June 30<sup>th</sup>. Will meet after the Selectmen's meeting.

7:30 p.m. – Bob stated that Sgt. Chauvette has placed a full page ad in the Smart Shopper listing rules and regulations of ATV's. State Police explained that they only have 10 troopers working out of the barracks and can only do so much enforcement. The State Police have a no chase policy for safety reasons. Stated that it's a small number ruining it for the larger number. Explained that they need as much information as possible from citizens and they will follow up on any leads. Discussed posting town property prohibiting wheeled vehicles and Game Warden Blanchard offered to provide all the signs we want. Stated that they also have a no chase policy and they do go after them when they can. Doug questioned if it would be better to post the land or to establish trails and all agreed that usually you are more successful if you work with them. Discussed the rabies situation and it was reported that it is much lower than the past couple of years. Ticks are very bad this year. Discussed the Gobeil Park attendants attending the Milfoil seminar.
