

Transfer Station Committee
Workshop
January 5, 2009
7:00 PM

Members present: Chairman David Woodsome, Don Holden, Brigit McCallum, Dennis Abbott and Committee Secretary Nancy Roberge. Also present: Dean Waterhouse.

Workshop called to order at 7:10 PM.

Compactor: This project is on hold until Spring. The Town will request bids from local contractors to do the concrete and electrical work.

Single Stream: Is Waterboro going single stream? Can we use the cardboard compactor to go single stream? Do we continue to do what we are doing and piece mail the compactor installation? The Committee will hold a meeting on January 19th at 6:00 PM to talk about single stream.

David reported while he was at the Transfer Station one Saturday and asked people for their comments. Some of the comments were: 1. give people containers, 2. keep it simple. David suggested that this Spring to have members of the Committee at the Transfer Station a couple of weekends to ask people for suggestions or record answers to a quick survey.

Schools: We have been trying to schedule meetings with the Superintendent of SAD57 but there has been no response.

Next Meeting is January 19, 2008 at 6:00 PM

Workshop adjourned at 8:00 PM.

Respectfully submitted,

Nancy Roberge
